

**PROPOSAL FOR ELECTIVE DIDACTIC ACTIVITIES (ADE)
A.A. 2020-2021**

TITLE ADE	NEW CONCEPTS IN THE PATHOGENESIS OF ENDOMETRIOSIS				
PROF./ DR.	ALFONSO BALDI				
SCIENTIFIC DISCIPLINARY SECTOR (SSD)	MED/08				
GENERAL AND SPECIFIC OBJECTIVES (MAX 500 CHARACTERS)	The ADE will describe the different theories about the pathogenesis of endometriosis, with particular attention to the embryologic theory. Endometriosis is still largely underestimated and ignored despite having a big impact on the quality of life of a very large number of women. Many of the data presented are the result of the scientific activity of the Italian Endometriosis Foundation				
ACTIVITY TYPE	PROPOSED ACTIVITY	MINIMUM DURATION (HOUR)	ADE DURATION (HOUR)	CFU	PROPOSED CFU
LABORATORY ACTIVITY /INTERNSHIPS	<input type="checkbox"/>		_____		_____
