

PROPOSAL FOR ELECTIVE DIDACTIC ACTIVITIES (ADE) A.A. 2022-2023

TITLE		Rare Diseases			
PROF.		Giuseppe Limongelli			
SCIENTIFIC DISCIPLINARY SECTOR (SSD)		MED/11			
GENERAL AND SPECIFIC OBJECTIVES		Rare diseases are diseases which affect a small number of people compared to the general population and specific issues are raised in relation to their rarity. In Europe, a disease is considered to be rare when it affects 1 person per 2000. A disease can be rare in one region, but common in another. A theme very important for these patients is: " Bridging Health and Social Care", a need deeply felt by the whole community of people with rare diseases, the health supply and the social one often meets by a series of needs, such as "home therapy", physical rehabilitative or qualifying therapies, access to social support services, all problems that will be discussed in this event.
