

SIBBM 2025 - Frontiers in Molecular Biology

Naples, Italy - 17-19 June 2025

Complesso Santa Patrizia, Via Luciano Armanni, 5

Molecular drivers and targets in development and disease

Scientific Organising Committee

Lucia Altucci

University of Campania L. Vanvitelli

Umberto Galderisi

University of Campania L. Vanvitelli

Nicoletta Potenza

University of Campania L. Vanvitelli

Rosaria Benedetti

University of Campania L. Vanvitelli

Vincenzo Carafa

University of Campania L. Vanvitelli

Alessandro Fiorenzano

Institute of Genetics and Biophysics, CNR, Naples

Giuseppe Merla

University of Naples Federico II

Gabriella Minchiotti

Institute of Genetics and Biophysics, CNR, Naples

Caterina Missero

University of Naples Federico II

Topics

3D Genome organization

Synthetic biology and Stem Cell-Based Models

Emerging Technologies in Integrative Omics, Spatial Transcriptomics, and

Artificial Intelligence

Exploring and exploiting gene expression modulation
